JUNIOR DEVOPS / OPERATIONS ENGINEER

ABOUT ME

ICT undergraduate building a strong foundation in Linux, programming, networking, automation, and DevOps practices. Hands-on experience with Python, Java, C/C++, JavaScript, SQL, Git/GitHub, Linux, shell scripting, and cybersecurity tools through academic and personal projects. Currently developing practical skills in CI/CD, containerization, cloud technologies, infrastructure automation, and DevSecOps. Seeking a junior DevOps, Operations, or software engineering opportunity to apply and expand these technical skills.

PROJECTS

LINUX AUTOMATION & SHELL SCRIPTING

Technologies: Linux, Bash, Python, Cron

- Developed and executed Linux-based scripts for task automation, background processes, logging, and scheduled execution.
- Practiced Linux command-line operations, process management, file permissions, environment configuration, and cron-based scheduling.
- Applied Python and shell scripting to automate repetitive system tasks.

GIT & GITHUB / CI/CD PRACTICE

Technologies: Git, GitHub, GitHub Actions, YAML

- Practiced Git-based version control and repository management using branching, commits, and remote workflows.
- Explored GitHub Actions to understand automated build and workflow execution.
- Applied version-control practices to software and academic projects.

CYBERSECURITY & CTF PRACTICE

Technologies: Kali Linux, Wireshark, tshark, binwalk, strings, exiftool, steghide, stegseek

- Participated in cybersecurity and CTF challenges covering digital forensics, steganography, network analysis, and web security.
- Used Linux-based security tools to inspect files, extract hidden information, analyze metadata, and investigate network traffic.
- Strengthened practical Linux, networking, and security troubleshooting skills.

EDUCATION

BICT (HONOURS)

University of Vavuniya, Sri Lanka

Overall GPA: 3.89 / 4.00

ACHIEVEMENTS

2nd Place — InnovateX Hackathon 2025

Participant — VanniXtreme & IEEE Xtreme

Participant — CTF & USBUS Technical Competitions

Member — IEEE Student Branch & Tech Activities

LANGUAGES

Tamil	Native
English	Professional Working

EXPERTISE & SKILLS

DEVOPS & OPERATIONS

Linux, Git, GitHub Actions, Shell Scripting, Cron

PROGRAMMING & SCRIPTING

Python, Bash, Java, C/C++, JavaScript, SQL

NETWORKING & SECURITY

TCP/IP, Wireshark, tshark, Forensics, CTF

DATABASES & TOOLS

MySQL, MariaDB, VS Code, Kali Linux, Figma

CERTIFICATIONS

- **GitHub & GitHub Actions** — Microsoft Student Ambassadors
- **Python / Next Level Python** — Univ. of Moratuwa, CODL
- **Cybersecurity Job Simulation** — Forage
- **Data Science & Analytics** — HP LIFE
